Office Action Summary	Application No. 10/071,809	Applicant(s) WANG, TINGHAO F.	
	Examiner Duy-Vu N. Deo	Art Unit 1765	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 27 April 2007.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 1, 3-12, 14, 15, 21, 23, 27-29 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention.

Claims 1, 3-12, 14, 15, 21-23, 25, 27 are rejected under 35 U.S.C. 112, first paragraph, because the specification does not reasonably provide enablement for the broad claiming of a process for etching a metal silicide layer using Cl₂/O₂ gas with an O₂ gas greater than 25% by volume. The reference of Nojiri discloses an example of etching a metal silicide layer where etching suddenly stops when an oxygen concentration above 25% is employed. (See Nojiri, page 1792, left column). The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to use the invention commensurate in scope with these claims. The specification does not enable one of ordinary skill to achieve the desired result as compared to the undesired results of the prior art.

Please also see the remand from the BPAI on 1/24/06.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

Art Unit: 1765

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 1, 3-12, 14, 15, 21, 23, 27-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The limitation "prior to said etching, a breakthrough etch" doesn't describe an active step as that of a method claim.

Response to Arguments

5. It is unclear how the new limitation "prior to said etching, a breakthrough etch" would show that the specification reasonably provides enablement for the broad claiming of a process for etching a metal silicide layer using Cl₂/O₂ gas with an O₂ gas greater than 25% by volume. Please see rejection above.
